

Caleb Mueller

ctwmueller@gmail.com | (778) 266-6601 | cmueller.ca

Ambitious engineering student with expertise in data processing, computer-aided design (CAD), and prototyping. Skilled in applying research to real-world problems using advanced technologies. Eager to transition to professional work, developing innovative solutions for environmental challenges.

EXPERIENCE

UNBC SCHOOL OF ENGINEERING

Field Assistant

Prince George, BC

November 2024 - Present

- Hydrology project on the Middle River north of Fort St. James
- Use of GPS for potential sites, hydrological measuring instruments, and radio for travel on resource roads

FIRST FORM

Owner

Prince George, BC

July 2024 - Present

- Development of complex assemblies for engineering projects in SolidWorks and Autodesk Fusion
- Design and manufacturing of locally sold household and hobby products

OVER THE EDGE STUDENT NEWSPAPER

Administrative Assistant

Prince George, BC

June 2024 – December 2024

- Created an Excel database for historical newspaper articles from UNBC's Northern BC Archives
- Digitized bank and tax documents

UNIVERSITY OF NORTHERN BRITISH COLUMBIA

Student Researcher

Prince George, BC

January 2024 - August 2024

- 3D modeling and thermal simulation of artificial bat roosts in Fusion and SimScale
- Impact of climate change on water balance and drought in agricultural watersheds in British Columbia
- Processing of historical and projected climate data using Python, R-Studio, and ArcGIS Pro

CANADA REVENUE AGENCY

Administrative Support Clerk

Calgary, AB

May 2022 - August 2022

- Prepared tax correspondence and notices for mailing to taxpayers
- Reset and troubleshooted call center agent smartphones

Administrative Assistant

May 2021 - August 2021

- Entered employee schedules, leave, and vacation balances in a proprietary database
- Maintained scheduling spreadsheets for managers and prepared Excel reports

EDUCATION

University of Northern British Columbia

BASC Environmental Engineering

Prince George, BC

September 2020 – May 2025

CERTIFICATIONS

- SolidWorks CAD Design Professional
- IBM Data Science Specialization

ID: C-Z86YEG5TLA

ID: 7KUJ2G6G6EJL

TECHNICAL SKILLS

- CAD: SolidWorks, Fusion, CADWORK
- Data Analysis & Simulation: Python, Excel, Prism, ArcGIS, Simscale
- FDM 3D Printing

VOLUNTEERING

UNBC School of Engineering

Maintenance

Prince George, BC

October 2024 – Present

- Development of 3D printing capacity for the engineering program to enhance learning outcomes
- Maintenance of existing machines

Over the Edge Student Newspaper

Content Writer

Prince George, BC

July 2024 – Present

Spark Lab

Prototype Developer

Prince George, BC

January 2024 – Present

- Engaged with researchers to understand their needs and challenges in laboratory/field environments.
- Designed customized research solutions using CAD and 3D printing
- Management of a 3D printing queue, ensuring models were print-ready, and edited for printability
- Repair and maintenance of four fused deposition modeling (FDM) 3D printers

AARCS Safe Haven

Veterinarian Assistant

Calgary, AB

September 2019 – December 2019

- Cleaned veterinarian surgical equipment, kennels
- Monitored animals before and after procedures

AWARDS

NSERC Undergraduate Student Research Award

Natural Sciences and Engineering Research Council of Canada

May 2024

- Natural Sciences and Engineering Research Council of Canada Undergraduate Student Research Award, awarded for outstanding research contributions in the natural sciences and engineering fields. The award recognizes exceptional research skills, creativity, and potential for future contributions to the field.

Undergraduate Research Experience Award

University of Northern British Columbia

January 2024

- The Undergraduate Research Experience (URE) Award at UNBC is a competitive program designed to involve undergraduate students in scholarly research. Recipients collaborate with faculty on research projects, developing critical thinking, inquiry, and research skills.
